

# Lasse Stausgaard

MULTIMEDIA DESIGN STUDENT

✉ L.stausgaard@gmail.com

📍 Tagensvej, Copenhagen, Denmark

☎ +45 28155925

## Profile

I am a 26 year old Multimedia Design student from KEA - Copenhagen school of Design & Technology, and currently searching for an internship from the end of august and 10 weeks forth.

I have recently finished my 3rd semester elective in front-end development, and my intention upon finishing my last remaining semester of Multimedia Design, is to pursue a Bachelor in web-development.

I am experienced in designing and building various web-applications from start to finish using HTML5, CSS3 & JavaScript.

Through my work i have gained familiarity and insights with areas such as;

Creating and organizing databases, fetching data in JSON format from databases and handling said data by separating and applying it accordingly.

Creating sign-up / sign-in forms, creating and combining animations of elements for UX flows. Organizing and structuring my work through the use of activity diagrams, call graphs, user journeys and sketching prototype designs.

Using various business models and analyses to establish clients' needs and determine appropriate graphic measure to implement characteristic and relatable elements to communicate clients' messages and personality.

Fundamental SEO & code semantics.

## Education

Multimedia Design, Copenhagen School of Design and Technology,  
Copenhagen

*June 2020 — Present*
